

IKF - GRADUATION REQUIREMENTS

The graduation requirements of the Cape Elizabeth School Department (CESD) are designed to ensure that students demonstrate proficiency to the content standards and Guiding Principles of the Maine Learning Results prior to earning a diploma.

Students demonstrate proficiency by earning credit for courses and other approved learning experiences whose curricula are aligned to the content standards and Guiding Principles of the Maine Learning Results.

Before entering high school, students need to know the standards for attaining a high school diploma in order to plan an appropriate, sequential, educational program to meet that goal. The Superintendent, through the high school principal or other designee, shall be responsible for making accurate information concerning diploma requirements available to incoming students and their parents prior to the start of their ninth grade school year, and as soon as practicable when there is any change in State-imposed standards that must be met before students may be awarded a high school diploma. A copy of this policy will be disseminated to all incoming ninth grade students at the time of course selection and will also be included in every edition of the high school student handbook.

The school unit's instructional program is aligned with the content standards of Maine's system of Learning Results. A diploma from Cape Elizabeth High School signifies that the graduate has completed the requirements described in Maine law and Board policy, and is ready to enter a postsecondary educational program or career as a clear and effective communicator, a self-directed and life-long learner, a creative and practical problem solver, a responsible and involved citizen and an informed and integrative thinker. The Board has approved the following schedule of minimum requirements for graduation, which includes requirements specified by the State of Maine. The Board expects the Superintendent/designee to inform students and parents as soon as practicable of any additional State-imposed standards that must be met before students may be awarded a diploma.
